

17th Annual Trends in Autism Education & Resource Forum

FACE-ing Autism with Integrated & Innovative Approaches

Please join us for special holiday event featuring Special Santa, sensitive to special needs kiddos! Bring the whole family! Presenters will discuss integrating approaches in innovative ways to better meet individual therapy needs. Examples include combining ABA and Sensory Integration in Physical Therapy, Special Education, and Dental Care. Holiday arts and crafts will be led by an occupational therapist, and kids can take photos with Santa Claus himself!

Free Community Event
Saturday December 1st 9:30am-1pm
309 E. Second St. Pomona, CA
Health Education Center, 1st Floor
To RSVP email face@westernu.edu or call 909-469-8491

This year's event will feature renowned special education and integrative therapy expert WesternU's own Dr. Denise Schilling! Dr. Schilling is a highly skilled physical therapist with training in Sensory Integration, ABA, and Special Education. She creatively combines approaches to better meet the needs of individual patients. She will be joined by Dr. Yawen Peng, a special needs dental expert. They will describe fun games they are developing to encourage dental care! Resources will be shared, and WesternU dental students will provide oral hygiene instructions, dental desensitization, nutritional counseling, and free dental supplies. Additional Info about FACE can be found at www.westernu.edu/face.
